

MARC GRAPPA

Borghi Marc Grappa is obtained from freshly squeezed marcs of selected Venetian grapes. The expert treatment of our master distillers produce a fine and modern product, characterized by a great fragrance of taste and aroma. Borghi Marc Grappa is a white and delicate grappa. Its elegance is also expressed by its packaging, with white and silver-bordered labels and a silvery cork. It is excellent both at room temperature and slightly chilled.

It is also exquisite when mixed with coffee,
as called for by the most ancient traditions of our land.

Alcohol content: 42% vol.

Serving temperature: 15°C
