

# SYRAH

## IN VINEYARD

The Syrah is an international grape variety famous for its spicy notes that Paladin interprets with great elegance. The grapes are harvest at optimally maturity. It's a generous vine, characterized by high quality and typicality.

## IN CELLAR

The grapes are vinified at the average temperature of 25°C, while the maceration lasts for about 15 days. It follows a maturation in wooden barrique and barrel 30hl to obtain from wood a slow oxygenation with the aim of maturing the original tannins, without extracting them from wood, thus giving the wine softness.

## IN TASTING

Intense red wine with garnet reflections. The perfume is enveloping with notes of red fruit, as blackberries, raspberries and black cherry. Fruity and fresh, with hints of spices and black pepper. In mouth, we can find the cherry in spirit.

## PLUS

Large and round wine with great character. Enveloping and very pleasant for its harmony and wideness. Two souls enclosed in the same bottle: one soft and fragrant and the other structured and decisive that is given by the aging in wood.

## PAIRINGS

Ideal for all meals, excellent with dishes of boiled and baked meats. Perfect with cold cuts and cheeses of medium maturing; also excellent in a pairing with vegetables quiches. In summer try it fresh (12-14°C) to pair with your barbecue!

Taste at 14-16°C
